P-MV 606 with SB530 (sold separately)

Communicates operational information

Electric conductivity-based water sensor

P-MV606+SB393 (sold separately)

P-MV606+SB530 (sold separately)

P-MV606+SB948+KBTMVB948 (sold separately)

P-MV606+SB1025 (sold separately)

Standard Features

- **“Global Standard” width**- 30" (76.20 cm) wide
- **Auto-alert indicator lights**- communicate about operating status. External indicator lights actually signal your staff when it is time to descale, sanitize, and more - making upkeep practically foolproof
- **WaterSense**- The patented WaterSense adaptive purge control delivers maximum reliability by reducing scale buildup for a longer time between cleanings
- **Front-facing Evaporator**- Ice forming process inspection and routine cleaning operations may be accomplished simply removing the front panel.
- **Hand-removable water distribution tube**- routine cleaning has never been so easy!
- **Preventative Maintenance**- a diagnostic code display guides the decisions regarding opening a service call by providing a clear description of any running problem, and maximises service tech's "first time fix" success rate.
- **Embedded antimicrobial**- Ag-Ion® antimicrobial is present in selected food-zone components
- **External Components**- All external panel components are crafted for optimal aesthetic appeal through superior fit and finish
- **Reusable air filter** is easily removable from the outside for ease of cleaning (in air-cooled models)
- **California Energy Commission**- meets or exceeds CEC guidelines
